

Stage 3: Get ready to take action

Preparation for overseas volunteers

Wall of ideas: Action projects of returned volunteers

My name is Orla. My action project focused on development education. I travelled to the global south with an organisation in my university.

This had a strong impact on me personally. I have stayed involved with this organisation. I have worked with Comhlámh the Irish partners in this course to run preparation days for other volunteers going out to the Global South. The aim of these workshops is to challenge their views on development and open up their minds to new ways of seeing the world.
